SUPPORTERS AND VOLUNTEERS

The Colours of Calcutta Foundation has a team of **56 supporters and volunteers** who enhance our team's capacity. They are involved in the organization of events and other projects.

ACKNOWLEDGEMENTS

Dear friends of Colours of Calcutta,

This dream started in 2006 and began to become a reality when our first project, Anand Bhavan, opened its doors to welcome 30 girls from the streets of Calcutta to start their educational journey. Step by step we grew, with the medical centre, the programme for children with malnutrition, the nursery and the women's craft workshop, expanding our reach to 24,353 beneficiaries in 2014. What really matters is not the number, however, but rather the lives of the people behind each of these figures.

At the close of 2013 we took a further step with the creation of the the Colours of Calcutta Foundation and at the end our foundation's first year in existence, we want to share our joy with a huge THANK YOU to everyone who made it possible for us to reach this point.

THANK YOU to Un Ladrillo en Calcuta (A Brick in Calcutta). You were the first to believe in this project. Thank you for your courage, your strength and your encouragement.

THANK YOU to the Ananta Foundation for opening your doors to us at a difficult time. Thank you for your commitment and for helping us to grow.

THANK YOU to the Seva Sangh Samti team, our Indian counterparts, our fellow travellers and to the real stars of Colours, the beneficiaries: the boys, girls, women and men who come each day to the projects. Thank you for making us part of your lives, for sharing with us your daily struggle. Thank you for being an example of perseverance and overcoming.

THANK YOU to Amici Colours of Calcutta Italia and Fondazione Petrini in Switzerland for joining the team at this new phase and helping us to go further.

And **THANK YOU** to all who are part of the Colours family. THANK YOU to the volunteers, in Spain and in Calcutta, thank you to the members, donors, partners... because you are each an indispensable part of our team.

We continue with our work, facing new challenges, with renewed enthusiasm. We invite you to continue sharing with us, to continue making this dream come true.

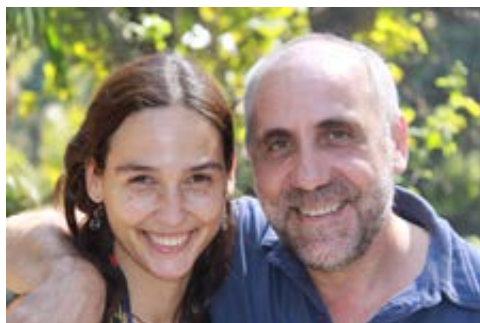

With all our affection,

Antonio Mesas

and

María de Muns

Directors of the Colours of Calcutta Foundation
(India and Spain)

The Colours of Calcutta Foundation is a Spanish NGO that began a **development cooperation programme** focusing on **health and education** in the **Pilkhana slum in Calcutta** (India) in 2005.

Colours of Calcutta is the brainchild of **Antonio Mesas**, who came to Calcutta to work as a volunteer with the Missionaries of Charity and decided to stay on to begin this project. In the early stages he worked with a small group of people and in 2005 they formed the "*Un Ladrillo en Calcuta*" Association. They then began collaborating with the **Indian NGO Seva Sangh Samiti**, founded in 1968 by the French priest Father Laborde, whose life was recounted by journalist Dominique Lapierre in his book "*The City of Joy*". They remain our partners in the area to this day.

The first initiative to be launched was **a protection home for girls, Anand Bhavan**, which opened in **April 2006**. One year later we took on the **management of a medical centre** in Pilkhana, expanding services each year. In 2011, the latest project was launched: **a women's craft workshop**. These projects continue to operate today and they integrate our development cooperation programme.

In October 2009, Antonio Mesas received the **Cross of the Order of Isabella the Catholic** from the Government of Spain in recognition of his work. In 2010, the project was integrated into the Ananta Foundation, taking the name "Colours of Calcutta, development cooperation programme", and has continued to progress over the four years since.

In late 2013, Colours of Calcutta embarked on a new phase, becoming the **Colours of Calcutta Foundation on the 13th of December**. It registered with the Ministry of Health, Social Services and Equality and the AECID (Spanish Agency of International Cooperation for Development) as an NGDO (Non Governmental Development Organization) in the first quarter of 2014, with the aim of creating a structure that will ensure **the sustainability of the projects in Calcutta**, using all the experience gained from the work of these past **nine years and adding new initiatives** for the implementation of future projects.

OUR MISSION

Provide **development opportunities** to people living in situations of **extreme poverty** in order to improve their living conditions.

OUR VISION

- Working for development means **believing in people**, in their capacity for action and transformation, when they have the resources and opportunities to develop this capability.
- We believe that the **development of a community** happens through the development of its people and their active participation.
- We believe in children as a driving force for development. By attending to their **health needs** and **access to education**, we try to provide them with the opportunity to develop their capacity for transformation.

DEVELOPMENT COOPERATION PROGRAMME IN INDIA

Our projects focus on the development cooperation programme we carry out in Calcutta (India). Our role in this programme concentrates on:

IMPLEMENTATION, MANAGEMENT AND EVALUATION IN THE FIELD

In order to do this, the Colours of Calcutta Foundation has two people in the field: Antonio Mesas, India director (and founder of Colours of Calcutta), present all year round, who performs the roles of management, supervision and monitoring, and María de Muns, director in Spain, who travels to Calcutta twice a year to provide technical support in the management and evaluation of the projects.

Local counterpart: Seva Sangh Samiti

Seva Sangh Samiti

We work in collaboration with the Indian NGO Seva Sangh Samiti, which was founded in 1968 by Father Laborde, on whose story the book "City of Joy" by Dominique Lapierre was based. Seva Sangh Samiti has 46 years of experience in the Pilkhana slum in Calcutta (India) where our projects are located.

The majority of the team who work on the projects (51 local staff) are natives of the area who have received the necessary training for their work. This helps enormously in terms of our awareness of the needs of the community, our understanding of the difficulties we encounter and the relationship with the beneficiary families, who in turn become the driving force for the development of their community. Local professionals have also joined the team over the years, bringing their knowledge and experience from different fields (health, education ...) to contribute to the development of their people.

This has allowed the programme to adapt to the needs identified in the community over the 9 years, so that every new initiative stems from a genuine identified need. The result of which is that we now find ourselves with a programme which is fully integrated into the surrounding community.

Seva Sangh Samiti company details:

Registered since 1968 in the Register of Companies in the state of West Bengal No. s/8870 of 1967-1968.

Registered with the Ministry of Internal Affairs of the Central Government of India in New Delhi, No. 147000036, since the 25th of April, 1985

Areas of operation

The programme focuses on the areas of health, education, vocational training and gender equality, as pillars of individual and community development.

AREAS	PROJECTS
HEALTH	Pilhana Medical Centre, Community health programme: <ul style="list-style-type: none"> • Primary care consultations • Tuberculosis control programme • Programme for children with malnutrition (0-2 years old) • Workshops on health education
EDUCATION, EMPLOYMENT AND GENDER EQUALITY	Nursery (2 to 5 years old): <ul style="list-style-type: none"> • Preschool education • School grants Anand Bhavan, protection home for young and adolescent girls: <ul style="list-style-type: none"> • Primary and secondary education, Baccalaureate • Vocational training Women's Craft Workshop: <ul style="list-style-type: none"> • Vocational training in handicrafts • Production workshop

SUSTAINABILITY

We work towards the sustainability of long-term projects, aiming to improve the training of the local team to meet the challenges of the day with regard to management and funding, promoting self-funding initiatives and obtaining resources within India.

FUNDING

The Colours of Calcutta Foundation is one of the main funders of the projects which make up this programme. For this reason, our work in Spain focuses on raising funds through the collaboration of members, private donors and organizations, and various activities and events are held throughout the year.

We also have the support of Amici Colours of Calcutta Italia ONLUS, our sister organization in Milan, and the Fondazione Petrini in Switzerland.

PILKHANA, “THE CITY OF JOY”

Calcutta has an estimated population of over 15 million people of which it is estimated that more than 5 million live below the poverty line. Many of these people live in large slums located near industrial settlements. Our project is located in one of these slums, Pilkhana - better known as the “City of Joy” - in Howrah, an industrial district of Calcutta.

Pilkhana is one of the largest slums in Calcutta and has a precarious infrastructure, with more than 100,000 inhabitants who live in conditions of extreme poverty. Many of the inhabitants of this area are migrants from rural areas of the same state of West Bengal and the neighbouring state of Bihar, who came to the city in search of work. The families are large, with the extended family living together in order to try to cover the needs of its members, given the lack of public social welfare. The families’ incomes are low and unstable, deriving from makeshift jobs, and are often less than €1 a day.

Health is affected adversely by the harsh living conditions and a public healthcare system without the adequate resources for the high population density. We also found a high rate of illiteracy among parents and this affects parenting standards and the children's development. Moreover, public education is not free, which makes access to education difficult for many of the children of the area.

PILKHANA MEDICAL CENTRE COMMUNITY HEALTH PROGRAMME

PROGRAMME START DATE: 2007

The Pilkhana medical centre was inaugurated by Seva Sangh Samiti in 1976 and since then it has operated on a continuous basis, having become fully integrated into the community. Our team began collaborating with this centre in 2006 when it was on the brink of closure due to a lack of resources. The building was renovated and a new phase began with its reopening in January 2007. Since then, the number of patients and services has been increasing every year.

BENEFICIARIES

Children and adults of all ages are seen in the medical centre: inhabitants of the Pilkhana slum as well as other slums which are further away (Tikiapara, Belilius Road, Batra, Dasnagar), as it is one of the few centres of its kind in the area.

OBJECTIVES

- Provide **basic health care necessities** that will improve the overall health of families in the slum.
- Carry out health **promotion activities** aimed at the **prevention and early detection** of diseases, to ensure greater speed and efficiency in the treatments.

PROJECTS

PRIMARY HEALTHCARE

We provide basic healthcare necessities which are accessible to families in the community through the following services:

Departments:

- General Practice: Monday to Saturday
- Pulmology: Monday, Wednesday and Friday
- Gynaecology and obstetrics: Tuesday, Thursday and Saturday
- Paediatrics: Monday, Wednesday and Friday
- Physiotherapy: Monday to Saturday
- Treatment room: Monday to Saturday
- Dental Clinic: Tuesdays and Thursdays. Launched in 2014.

Pharmacy:

The medications prescribed by the doctors are provided free of charge and we acquire them via the Community Development Medical Unit. This organization specializes in the sale of generic medicines to NGOs, so quality is ensured.

Diagnostic testing:

Although the centre does not have the equipment for diagnostic testing, we have an agreement in place with Lakhotia Centre, a diagnostic centre in the area.

TUBERCULOSIS CONTROL PROGRAMME

Tuberculosis is considered one of the major health epidemics in India and is widespread among children and adults. The medical centre is part of the network of **Directly Observed Treatment (DOT)** centres, designated by the central government as part of the campaign to control tuberculosis and which **provide treatment to patients free of charge.**

SUPPLEMENTARY NUTRITION PROGRAMME

This programme reinforces the treatment of TB patients by providing them with a **nutritional supplement** every other day. This consists of a breakfast with a high nutritional value which helps in their treatment.

VACCINATION CAMPAIGNS

Our centre facilitates access to the vaccination campaigns carried out by the government, keeping mothers informed and supervising the children's vaccination records. Some public vaccination campaigns, such as that of Polio, are carried out by health workers who use our centre to reach the children.

HEALTH EDUCATION WORKSHOPS

Prevention is one of the cornerstones of the intervention. In 2014, we continued our monthly health promotion workshops within each of the departments, targeting mothers in particular due to their critical role in the families' health.

OPENING OF THE DENTAL CLINIC IN AUGUST

On the **12th of August**, we opened a new department: a **Dental Clinic**. This was made possible thanks to the collaboration of the *Indian Women's Charity Association* of Madrid, who contributed the amount required for the equipment, and the impetus and guidance of Dr. Luis Jane from Barcelona. DVD Dental also donated materials.

2014 OUTCOMES

PRIMARY CARE

17,015 consultations attended in 2014

MEDICAL CENTRE CASES

Tithi, a case of cleft lip

Tithi is a child with a cleft lip that came to our facility at 8 months old. Our team facilitated the intervention in Mercy Hospital in August where Tithi underwent the first surgery successfully and is waiting for the second next year.

Axana, learning to walk

Axana is 8 years old and was born with cerebral palsy. Every day she comes to the medical centre for physiotherapy to advance her independence and in 2014 she began to take her first steps with the help of her mother.

Sanjeev, recovering from tuberculosis

Sanjeev is 25 and works as a rickshaw driver in Pilkhana. He contracted tuberculosis and this prevented him from working to be able to support his family. In 2014 he received treatment in our hospital and is now recovered.

Surmila, physiotherapy unit

Surmila is 67 and as a result of very tough living conditions and various ailments in her bones could barely walk. She receives physiotherapy treatment in the medical centre and has been provided with a walking stick so that she can get around independently..

PROGRAMME FOR CHILDREN WITH MALNUTRITION

PROGRAMME START DATE: 2007

This programme operates within the medical centre. It began when the centre reopened in 2007 with a day unit which was limited to 16 places due to reasons of space. In 2008 we expanded it with the launch of the weekly care programme, enabling us to treat roughly 80 children simultaneously. This has meant that since then we have been able to treat every child who has presented at the centre with malnutrition.

BENEFICIARIES

Children up to 2 years of age suffering from malnutrition.

OBJECTIVE

- Treat **child malnutrition**.
- Reduce child **mortality**.
- Counter the **effects of malnutrition** on child development.

PROJECTS

1. Day unit for children with malnutrition:

Accommodating 16 children, priority is given to those who arrive in a state of severe malnutrition or with an **extreme family situation** which makes proper treatment at home difficult. They receive care from Monday to Friday and are in the centre from 10am to 3.30pm. They are looked after by two nurses and two carers. In addition, the mothers are given the milk they need for feeds at home.

2. Weekly care programme:

With space for around **65 children aimed** at those with mild, moderate and severe malnutrition. The children attend once a week for a pediatric review and weight check and they receive the milk they need for the whole week.

COMPREHENSIVE TREATMENT OF MALNUTRITION

The treatment lasts from the birth of the child until that child reaches age 2, receiving comprehensive treatment consisting of:

1. Medical care: Detection and monitoring by the medical team (paediatrician and nurses).

2. Nutrition: Breast milk is an indispensable source of nourishment to the baby in their early life. For this reason, we encourage breastfeeding within the malnutrition programme. In many of the cases that present, breastfeeding is insufficient due to the condition of the mother and so it is necessary to combine breast milk with formula.

3. Physiotherapy treatment for children of the day unit and the weekly programme: Malnutrition affects the child's development, and in particular their psychomotor development. For this reason, all children who need it receive treatment in the physiotherapy unit of the medical centre.

4. Workshops on health education and parenting guidelines for mothers: Workshops are given once a month where issues focusing on parenting guidelines (breastfeeding, vaccination, nutrition, hygiene...) are addressed. The aim is that mothers learn to care for their children so that they can take responsibility for their role in the upbringing of the child and prevent the child becoming malnourished again after the treatment.

2014 OUTCOMES

	Day unit	Weekly programme	TOTAL	%
TOTAL	28	83	111	100%
Girls	17	44	61	55%
Boys	11	39	50	45%
Discharges	6	33	39	35%
Abandoned treatment	9	7	16	14%
Continuing treatment in 2015	13	43	56	50%

OVERCOMING MALNUTRITION

Md.NAJAR: day unit

Md. Najar came to us in March 2014 in a state of severe malnutrition. He was treated during the year in the malnutrition unit and has made some progress, but needs to continue with us next year to recover fully.

FARZANA: treatment ended in 2014

Farzana came to the day unit in 2013 as a 1 year-old with grade 2 malnutrition. Her treatment continued in 2014 and was coming to its completion at the end of the year so that she can join the nursery for the next academic year.

FROM THE NURSERY TO SCHOOL

IBRAN AND Md. SAHADAN

Both came to the malnutrition programme's day unit in 2010. They became best friends and went to the nursery together once they had recovered in 2012. In January 2014 they started school in one of the schools in the district.

NURSERY

NURSERY START DATE: 2007

The nursery is located within the medical centre. It was launched in 2007 upon the centre's reopening.

BENEFICIARIES

Forty boys and girls from 2-5 years of age. We prioritize those children who have completed their treatment in the malnutrition programme and those who have no one to care for them during the day, so that they will not be out on the street.

OBJECTIVES

- Provide basic care to improve the overall health of the child: **nutrition, hygiene, medical care.**
- Provide **preschool education** that contributes to the psychosocial development of the children and prepares them for their subsequent schooling.
- Help them **enrol in school** at the age of five.

PROJECTS

The children attend the nursery from Monday to Friday from 10am to 3.30pm. Through our projects we aim to provide them with a comprehensive care that contributes to the development of each child.

1. HEALTH:

- **Hygiene:** the children do not have toilets or running water in their homes. To maintain proper hygiene the children shower each day upon arrival at the nursery.
- **Nutrition:** they receive 3 meals a day - breakfast, lunch and a snack. Their diet is monitored by the paediatrician so that their basic food needs according to their age are met.
- **Medical care:** the nursery is located within the medical centre and children receive the care of the centre's paediatrician and nurses.
- **Child yoga classes and physiotherapy:** The children have yoga class three times a week, which contributes to their psychomotor development. In addition, the children who require individual treatment receive physiotherapy.

2. PRESCHOOL EDUCATION:

The nursery has two classes with two different teachers, divided according to age: 2-3 year olds and 3-4 year olds. We have an educational programme for each of the classes adapted to their ages. We also go on outings twice a year with the children to the zoo or the botanical garden. This is to encourage contact with nature, as there are no parks in the slum and the children have no open spaces in which to play.

3. EDUCATION ASSISTANCE:

We work to raise awareness among families of the value of education for their children. When the child turns 5, the age to start school, we help the families with the admission process in the public schools of the district. We also fund the first year of school through grants which cover all tuition, uniform and book expenses.

4. EDUCATING THE MOTHERS:

The teachers, nurses and doctors hold group sessions with the mothers each month. Health issues are addressed along with the importance of education for the children's development.

2014 OUTCOMES

In January 2014, 11 children from the nursery were enrolled in different schools in the district.

	TOTAL	%
TOTAL 2014	43	100%
Girls	22	51%
Boys	21	49%
Children who continued from the previous year	25	58%
Children coming from the malnutrition programme	2	5%
Dropped out during the school year	4	9%
New children in 2014	18	42%
Education grants	11	26%

ANAND BHAVAN

Protection home for young and adolescent girls

START DATE: 2006

Anand Bhavan, which in Bengali means **"The House of Joy"**, is a protection home that has been in operation since April 2006, providing boarding facilities to young and adolescent girls. The girls are provided with a safe environment in which to grow and develop, a **comprehensive care** that covers their basic needs, their schooling, support with their educational needs and subsequent vocational training. The house is in Salkia, adjacent to Pilkhana.

BENEFICIARIES

Anand Bhavan can accommodate **30 girls between the ages of 6 and 18** who come from families in situations of extreme poverty. Most of these families are residents of Pilkhana, while others live in more remote rural areas and others are homeless and so are living on the street in the city of Calcutta.

OBJECTIVES

- Offer a home which provides the care necessary to contribute to the psychosocial development of the girls.
- Provide a **comprehensive education** to young and adolescent girls from disadvantaged families to equip them with the necessary resources for their social integration and to improve their living conditions.

PROJECTS

1. BOARD

Anand Bhavan provides a safe and caring environment in which to grow. The girls cohabit with educators and assist in the household chores. They are girls from families living in extreme poverty and have to face tough family situations. They each receive personalized attention and monitoring so that they can develop their abilities and their needs can be met, be they physical, academic, intellectual or emotional.

2. HEALTH

Many of the girls grew up in very poor health and this has had serious consequences for their development. Their **basic food, clothing, hygiene and medical needs** are met in the home. They are cared for by doctors from the Pilkhana medical centre and their diet is supervised by the paediatrician from the same centre. They each receive a general annual check-up (in October in 2014) and eye examination (in March in 2014), since many of the girls have impaired vision which affects their ability to learn and their school performance. Furthermore, our gynaecologist comes to Anand Bhavan to deliver talks on health education to the girls (2 talks in 2014).

3. EDUCATION

Formal education:

The girls attend two public schools in the area, depending on their native language (Hindi or Bengali). They also get extra tutoring in the home in Hindi and Bengali to meet their educational needs and English and computer classes to complement their training.

Extracurricular activities:

We view education in a holistic manner and an important part of this is the **teaching of moral values**. Moreover, we try to provide the girls with experiences to help them develop other skills, to experiment and create in the form of **workshops, cultural outings and excursions**. In 2014: the final sessions of the photography workshop that began the previous year; a dance workshop given by an Indian volunteer which finished with the annual event with the families; in August, leisure activities with a group of 9 Spanish volunteers; hand-washing workshop to mark the **World Health Organization's Global Hand-washing Day**; lessons in moral values conducted by the centre's director.

REFURBISHMENT OF THE COMPUTER ROOM

In 2014 we updated the computer room with 6 new computers, a printer and Internet connection.

4. WORKING WITH THE FAMILIES

It is essential that the girls **maintain contact with their families** and so we try to encourage this. Families visit the girls at Anand Bhavan every other Sunday and the girls return home during holiday periods, except in cases where the families live on the street and they prefer to come visit them because of the risks involved in street living. We also work with the mothers and fathers, or the guardians,

in the case of orphaned girls, to involve them in the education of their daughters, showing them the value of education for their future and encouraging them in their role as parents.

2014 OUTCOMES

Thirty-four young and adolescent girls in 2014.

We started 2014 with 30 children who had stayed on from the previous year. Four dropped out before finishing their schooling (2 of whom were 18 years old) so 4 new girls joined. The following is the age distribution:

Age range	N° of residents/age
Girls (from 5 to 10 years old)	6
Adolescents. First stage (11 to 13)	0
Adolescents. Second stage (14 to 17)	23
Legal adults (18 and 19 years old)	5
TOTAL	34

Schooling

The table below shows the distribution of the residents in terms of their school year:

LEVEL	Class	Bengalí school	Hindi school	TOTAL
HIGH SECONDARY(Class XI & XII)	Class XI	1	2	3
SECONDARY (Class VII to X)	Class X	2	5	7
	Class IX	4	8	12
	Class VIII	0	3	3
PRIMARY (Class I a VI)	Class VI	1	1	2
	Class V	1	0	1
	Class II	2	0	2
TOTAL		12	19	31

NOTE: Three of the girls that joined Anand Bhavan in 2014 did so at the end of the school year and so were enrolled in the school the following year.

ALISHA, NILU AND CHANDANA

Graduate and begin High Secondary

In 2014, three of the girls who came to Anand Bhavan when it opened in 2006 finished secondary level, sitting the official examination (Madhyamik) for the certificate of graduation and obtaining very good results. **Chandana, Alisha and Nilu** are the first group from Anand Bhavan to graduate secondary level. They are also the first in their families to do so and, with their support, have decided to continue studying to baccalaureate level.

WOMEN'S CRAFT WORKSHOP

START DATE: 2011

In September 2011 we opened the women's craft workshop thanks to the impetus of Sebastián Alcalá and his company Bordar & Co. The project has been growing ever since. In 2013 they began the process of converting it into a cooperative, obtaining its registration as an independent association under the name **Swikriti** (which in Bengali means "**recognition**") in June 2014. The project is now self-managed by the women.

They continue to work on the premises of Anand Bhavan, in a space they are given them free of charge. We also continue to assist them with management, product development and by buying their wares which we then sell in Spain.

OBJECTIVES

- Provide training in **handicraft techniques**.
- Provide the opportunity to **generate income** from their work.
- Create a space where they **feel valued and respected** and can develop as people.

BENEFICIARIES

Women living under **the poverty line**, with no access to education, who need to generate income in order to support their families.

PROJECTS

1. Training workshops:

The **craft workshop** offers the possibility of taking a 10 month course focusing on the following handicraft techniques:

- Hand embroidery, which is passed from mothers to daughters.
- Batik, a textile dyeing technique with a long tradition in India, registered in 2009 on the UNESCO World Cultural Heritage List.
- Crochet

2. Handicraft production team:

After completing the course, the students can join the **production team**. Women who have received their training in other centres can also join. Once incorporated into this group, the women have the opportunity to generate income from their work.

INTERNATIONAL FAIR TRADE NETWORK

From the beginning, the workshop has been associated with **CRC (Craft Resource Centre)**, a Calcutta organization with extensive experience and which is part of the **International Fair Trade Network**. They provide various groups of handicraft workers the possibility of commercializing their products and exporting them to countries in Europe and the United States. Their support has been essential to the management of the workshop in line with the rules of Fair Trade and provides the possibility of distributing the women's products outside India.

SALES IN SPAIN

Bordar & Co, a company directed by Sebastián Alcalá, the driving force behind our women's crafts workshop in Calcutta, has showrooms in Madrid and Barcelona. **Bordar & Co** continue to work with the workshop, providing a channel for the sale of its products in Spain and assisting with the development of new products on their visits to Calcutta.

PARTICIPATION IN LOCAL FAIRS

In 2013 the workshop took a big step, joining the circuit of local Craft Fairs. In October they participated in the **Calcutta Craft Fair**, one of the largest in the state of West Bengal. The Fair also held a contest in which the best work was awarded. The work presented by the teacher of the Swati Das workshop was voted best handmade embroidery of the Fair. They also attended the National Fair of Calcutta, along with artisans from all the states around the country.

OUTCOMES

At the end of 2014, **25 women** were working in the production workshop, of which 16 had continued from the previous year and 14 had joined in 2014.

VOLUNTEERS IN CALCUTTA 2014

With the experience gained over the years, we have developed a volunteer programme. Operating during the month of August, it offers a limited number of people the opportunity to join the project, assisting in the day to day running of the centres in roles related to their training and experience. In 2014, nine volunteers from Madrid, Barcelona and Murcia participated in the programme.

On top of that, we were joined by volunteers from the Parish of St. Josemaria of Aravaca (Madrid) group, six of whom spent two weeks in our facility. All the volunteers attended an evening of celebration with the girls from Anand Bhavan.

Furthermore, people who actively collaborate with us in Spain and Italy came to Calcutta to meet those involved and help with the projects. Some of them wrote about their experience on our website. Here are some excerpts:

Father José María Herranz, founding member

(...) "For me the greatest satisfaction comes from seeing that things work. (...) A visit to Colours involves a time of reconciliation with the NGOs and their smooth operation. The projects work, the money we send from Spain is well spent and the efficacy thereof is remarkable because the people who are looked after there badly need us to continue helping them. (...) I was struck by the generosity of all those who are committed to this project and are involved in its development. In a Europe preoccupied solely and exclusively with the crisis, in a Europe in which we are all being obliged to live a little more modestly, to see a

group of people who, without being millionaires, are determined that generosity be one of their defining features reconciles with our society and with humanity. (...)"

Carmen Sánchez, volunteer in Calcutta and in Spain

"My time with the babies in the unit for malnourished children allowed me to share each day a close relationship with babies diagnosed with nutritional deficiencies and in many cases with other types of deficiencies, because they are never just one. The relationship I formed with both the children and with the people who care for them has allowed me to spend time with a new reality in our society, to get to know their culture, their level of development and to respect it deeply. (...)"

Tinuca Revolve, founding member

"Sharing in the day to day you become aware of the enormous work involved, the daily effort to take these projects forward. Seeing those faces of the children smiling when they see you come into their space. You come to know the dreams of the creators of the project, the school, the eye clinic... Dreams that, with a little help from each of us who have so much, can come true. And I'm going home with the intention of keeping it up. To keep asking support from those around me, to keep fighting, to stay involved so that this project, with my small contribution, keeps moving forward. Because it is easy to feel part of it, because trip after trip I see that the future appears to be changing, however slowly and because I believe that together, making life easier for the less fortunate.... it's possible."

Dr. Luis Jané, partner in the Dental Clinic project

(...) "The interview with Dr. Arjun, an Indian dentist, young but experienced and above all enthusiastic about the project. The visit to a dental depot to buy all the necessary materials and the excitement of the unknown. The same excitement of the people of Colours and all those that here in Spain have been enthusiastic about the possibility of providing a community dental service which is nonetheless safe and of good quality, to thousands of homeless people. (...) A lot to do, a lot to dream, but the strength of hope has no limits. Our target: two dental chairs working five days a week, eight hours a day. Only those who reach for the stars can get there."

Dr. Cesare Santi, president of Amici Colours of Calcutta Italia ONLUS

"On my last trip to Calcutta, it was wonderful to reunite with Antonio, Pranita, Regie and all the Colours of Calcutta team. Although the week flew by, Antonio and I did not waste a minute, using every morning and evening to go and see how our project was progressing. Everything works perfectly! How wonderful is the Women's Craft Workshop! I spent a couple of days with the staff: I saw them sewing, colouring fabrics, embroidering... all this in a happy and serene environment. Things are also in full swing in the Medical Centre! Dear Antonio, thank you wholeheartedly for all your work on the "front line" in Calcutta!"

The Colours of Calcutta Foundation organizes events the proceeds of which go towards funding our projects. Various organizations and partners assist us in this endeavour. We thank them for their support in 2014.

MADRID/APRIL - HOLI FESTIVAL IN THE MADRID SCHOOL OF DESIGN

On the 4th of April, Holi Festival was celebrated in this Madrid College. The event was organized by a group of teachers and students from the different specialties that took part in this initiative and it was very well attended.

Partners: Madrid School of Design (organizer), Francisco Alcántara School of Ceramics, Ademo Foundation, Paniculata, Ana Belén López Macías, Iosu López and Manuel Fernández (documentary short "La Alfombra Roja" (The Red Carpet)).

Guest artists: Sunny Singh Bollywood Dance Company, Mollywood, Shambala Dance, Mistri, Asamanvaya and Jasvinder Singh.

MADRID/APRIL - COLOURS OF CALCUTTA 2nd PADEL TOURNAMENT

This tournament took place in Madrid from the 20th to the 27th of April at the RACE Sports complex for the second consecutive year and was a great success. We surpassed the first year with 220 players taking part in this charity week of sport.

Partners: RACE Sports Complex, Padel Federation of Madrid, Marqués de Riscal, PS4, Tiger Khan, Aldo Vandini, Fricodán, Teatro Lara, Bullpadel, Drop Shot and Star Vie.

LAREDO/APRIL - 4th GASTRONOMY DAY IN LAREDO

The fourth annual Gourmet Day took place in Laredo on the 2nd of April, this time at the Hotel Cosmopol. This was another great success, thanks to a great team driven by the enthusiasm of Tinuca Revolver (founding partner of the Colours of Calcutta Foundation) and 150 guests who enjoyed a meal for charity.

Partners: Ignacio Solana of Restaurante Solana de Ampuero, Alfonso López Martínez of Restaurante Plaza and Álex Incera of Restaurante La Marina Company, the IES Catering School Fuente Fresnedo Catering School, Hotel Cosmopol.

DONOSTIA-SAN SEBASTIÁN/MAY - BASQUE-INDIAN FUSION DINNER

This took place on the 9th of May in the Basque Culinary Centre in San Sebastian. One hundred guests enjoyed a meal prepared by six exceptional chefs: Martín Berasategui of Restaurante Martín Berasategui, Dani López of Restaurante Kokotxa, Maite Partido of Restaurante La Muralla, Phillippe Lafargue of Restaurante Chez Phillippe, Antachan Manjaly Ouseph of Restaurante Días Desur. There was also a Bharata Natyam dance performance by Mónica de la Fuente.

Partners: KBO Gourmand (organizer), Basque Culinary Centre, No Problem Assistants, El Diario Vasco, Coconut, Astoria 7, Alza Autocares, Muga.

MADRID/JUNE - CELEBRATION OF A NEW PHASE

In Madrid on the 10th of June we celebrated the establishment of the Colours of Calcutta Foundation and the beginning of a new phase of this project which began nine years ago. Also in attendance were the founding members, partners and friends who have supported us all these years.

Partner: Restaurante Shukran Casa Árabe in Madrid.

BARCELONA/JUNE - PRESENTATION IN BARCELONA

The 30th of June saw the presentation of the Colours of Calcutta Foundation in Barcelona in the Sala Club BARTS to celebrate this new era with all the people who have worked with us over the years.

Partners: Mercé Puy (organizer and founding member of the Colours of Calcutta Foundation), Sala Club BARTS, Sebastián Alcalá and Dr. Luis Jané.

JUMBLE SALES AND CHARITY CORNERS

At our jumble sales we sell items made in the women's crafts workshop in Calcutta, with the proceeds going towards funding our projects there. In 2014 we were also invited to take part in the Christmas markets in Gimnasio Arsenal Madrid and the workshop's products were for sale at Nuevo Futuro's sale of work, thanks to Las Xanas.

We also have partners who offer a charity corner inside their stores. In Spain: The Luxury Shop and La Musaraña (Madrid); Look, Womanxl, Pura Vida by Marola (Laredo); Sandaly (Ibiza); Normode (Milan) and Eliza Peier (Switzerland).

JUMBLE SALES IN COMPANIES

We take part in the jumble sales organized by various companies, with the help of DANA Marketing Solidario. In 2014 we featured in Indra, Lafarge and Orange's jumble sales.

CHARITY CALENDAR

As we do every year, in 2014 we produced our foundation's Solidarity Calendar, with our best wishes for the coming year and thanks to all the people who help make it that we are able to continue with our work.

"NOS HABITA" IN ROME AND MILAN

Following its launch in Spain last year, the book "Nos Habita" (Within Us) by the poets Laura Pugno (Italy), Francis Catalano (Canada) and Violeta Medina (Chile) was presented in Italy on the 10th and 11th of January. Published by Cartoneras Meninas, it features embroidery from our workshop on its covers. The event took place in the Bibliolibreria Plautilla in Rome and the Libreria Popolare of Milan.

CHARITY DAY (PARABITA, LECCE)

On the 11th of May, a Charity Day was held, with children's games in the morning in the town square and a festival in the evening which involved a large team of artists from the area, thanks to our partner Virginia Prete .

THE EXTRAORDINARY ADVENTURES OF KAZEM

"The Extraordinary Adventures of Kazem" is a story for children written by Alessandro Viggiani, a 7 year old from Rimini (Italy), published by his mother in aid of the children of Colours of Calcutta.

BENEFIT CONCERT

On the 22nd of May, a "Tribute Concert to Dino" was held in Milan, with a performance by the Mediterranean Ensemble organised by Amici Colours of Calcutta ONLUS.

CONFERENCE IN TARANTO

Dr. Cesar Santi, president of Amici Colours of Calcutta, took part in the Conference held in Taranto on the 7th of November with a lecture on the Colours of Calcutta's work.

PHOTOGRAPHY BOOK: "THROUGH THE EYES OF GIRLS"

In 2014, Fondazione Petrini worked on the publication of "Through the Eyes of Girls", a book featuring photographs that the young and adolescent girls from our protection home, Anand Bhavan, took during the six months that they took part in the photography workshop. F.Petrini's publication had the input of Luigi Gattinara (design and layout) and Gioia Guerzoni (editor).

PROJECT IN COLLABORATION WITH IED

The Milan IED (European Institute of Design) held a competition among its students for the graphic design of the book "Through the Eyes of Girls".

In 2014, several people carried out various charitable initiatives in support of the Colours of Calcutta Foundation. Our deepest thanks to all of them.

CHARITY SALE IN PLATA Y AZUL (MADRID)

Lucia Alfaro once again organized a charity sale in her shop, Playa y Azul, in aid of the Colours of Calcutta Foundation. It took place from the 3rd to the 15th of February in Madrid thanks to the people who donated various items.

FESTIVAL IN THE DISTRICT OF SAN LORENZO (LAREDO)

On February 23, the Asociación Amigos del Barrio de San Lorenzo (Friends of the San Lorenzo Neighbourhood Association) organized a charity festival which on this occasion was in aid of our foundation. It was held at the Emilio Amavibra Sports Centre with the support of Laredo Council and featured performances of dance, gymnastics and aerobics with the participation of Academia Strymens, I.M.O. Gimnasia Rítmica and Grupo Aerobic I.M.O..

VILLA DE LAREDO 10K

On the 22nd of March we took part in the 12th "Villa de Laredo" 10k run, organized by the Association "Amigos del Deporte" (Friends of Sport). Our Laredo team of unfit volunteers, with Tinuca Revolvero at the head, set up our charity jumble sale in the Peugeot area at the finishing line.

ROS@LIDARIA IN SANT JORDI (BARCELONA)

Thanks to Ros@lidaria, on the 23rd of April, the day of Sant Jordi, we were in Barcelona attending an initiative of a group of volunteers who sell roses on this day for the benefit of various social causes, including the Colours of Calcutta Foundation.

CALENDULAS DEL ALMA (CORDOBA)

On the 26th of April, the play “*Calendulas del Alma*” (Marigolds of the Soul) premiered at the Teatro Circo de Puente Genil (Cordoba), in aid of the Colours of Calcutta Foundation. Directed by Valeria Tejero, the event was organized by Asociación Palacio Luna and Asociación Pontana de Teatro, in collaboration with Puente Genil council.

VUELVE LARRY (MADRID)

On the 2nd of May, the theatre company Bululú 2120 put on the play “*Vuelve Larry*” (Come Back Larry) in Madrid, inspired by the play “*All My Sons*” by Arthur Miller, in aid of the Colours of Calcutta Foundation. Directed by Antonio Malonda.

SECOND MIRASUR CHARITY PADEL TOURNAMENT (PINTO)

On the 10th and 11th of May, the second annual Charity Padel Tournament in aid of the Colours of Calcutta Foundation was held in the Mirasur Padel Club in Pinto and was a great success.

CHARITY TUESDAYS IN RESTAURANT SHUKRAN (MADRID)

The Restaurant Shukran Casa Arabe dedicated their Charity Tuesdays campaign for the month of October to our foundation, donating 25% of meals on Tuesdays to our projects.

ASOCIACIÓN CELIA DELGADO MATIAS DE AYUDA A LA INFANCIA (BILBAO)

On the 29th of November, the Celia Matias Delgado Children's Aid Association (Asociación Celia Delgado Matías de Ayuda a la Infancia) held its 3rd Charity Dinner at Bilbao Sports Club, and on this occasion the beneficiary was Anand Bhavan, our protection home for young and adolescent girls.

In December they held an original initiative to support our projects: The Charity Pintxo Route, for which they had the cooperation of various venues: Monterrey, Nicolás Bilbao Berria, Ziripot DO Bilbao, Bitoque, Monty, Ad-hoc-Sakakortxos, Seafood Mazarredo, and Egolike, who promoted the event.

We understand that raising awareness in the fight to eradicate poverty is also part of our work. We therefore participate in talks, workshops and conferences. We try to convey the reality of the situation of the people with whom we work in Calcutta and their living conditions, and to raise awareness of the projects that we carry out, showing that if we work together we can build a better world for everybody

VISITS TO SCHOOLS IN PARABITA (ITALY)

In February we visited Parabita, a town in the province of Lecce in Puglia (Italy), to share our experience with the students of different schools that opened their doors to us. We gave talks at the Snoopy nursery, the elementary and intermediary level groups at the schools Giuseppe Dimo and G.Pisanello, the town's soccer school and the Artístico Estatal I.I.S.S. E.Giannelli Parabita Secondary School.

SANTA MARIA DEL CAMINO COLLEGE (MADRID)

In March, the Colours of Calcutta Foundation took part in the Lenten Campaign of Santa Maria del Camino College in Madrid, the proceeds of which went towards our projects in India. Maria de Muns, director in Spain and former student of the school, gave talks to preschool, primary and secondary level classes.

SALVÉ CHOIR SCHOOL (LAREDO)

On the 2nd of April, we visited the Salve Choir School in Laredo and gave them a talk as part of the "Te lo cambio por una canción" (I'll Exchange it for a Song) Conference Cycle organized by the Choir School in association with Laredo Council (Department of Culture).

ALFONSO X EL SABIO UNIVERSITY

On the 30th of October we gave a presentation to International Relations and Translation students and on the 6th of November we held a Seminar on NGO Management at Alfonso X El Sabio University. We signed a cooperation agreement with the latter to take a student from the International Relations and Translation course on as an intern for the 2014-2015 academic year

DAY FOR CHILDREN IN CASA DE LA INDIA (VALLADOLID)

On the 12th of June 12 we participated in the Conference organized by the Vicente Ferrer Foundation as part of the Days for Children in Casa de la India in Valladolid.

PEDRO DEL HOYO COLLEGE (COLINDRES)

Each year students in CEIP Pedro del Hoyo organise a charity corner that this year they devoted to India and which featured various activities linked to our projects in Calcutta.

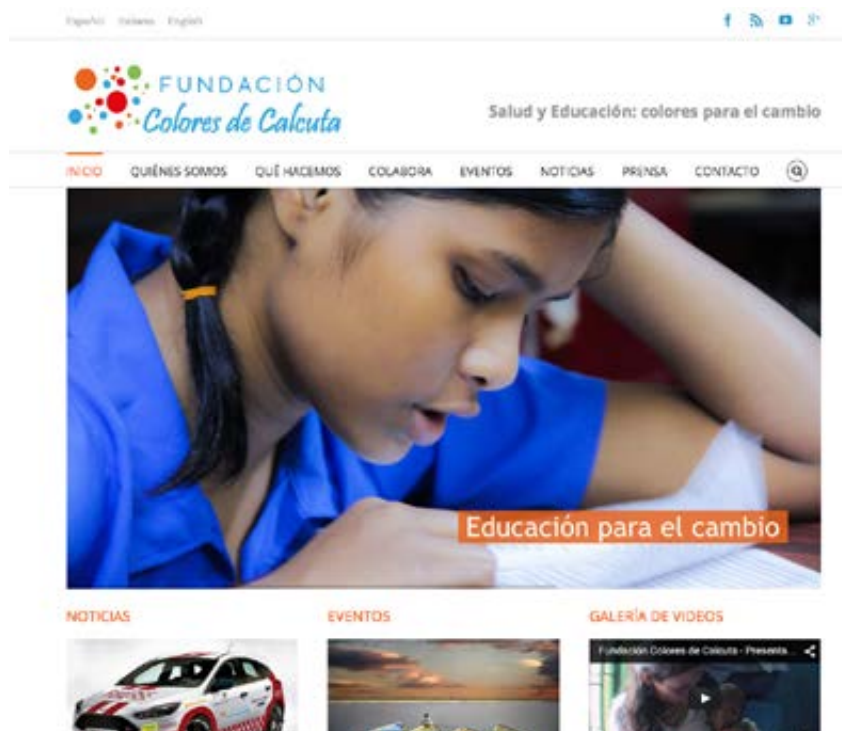

CHARITY THEATRE (MADRID)

In November the Nuestra Señora del Recuerdo College Drama Group put on the play "Busybody" by Jack Popplewell as part of a charity event which they invited various NGOs to participate in, including Colours of Calcutta.

Informe de Auditoría Independiente de Cuentas Anuales Abreviadas

Al Patronato de Fundación de Colores de Calcuta, por encargo del Presidente del Patronato

Hemos auditado las cuentas anuales abreviadas adjuntas de Fundación Colores de Calcuta (en adelante, la Fundación que comprenden el balance abreviado a 31 de diciembre de 2014 y la cuenta de resultados y la memoria abreviada correspondientes al ejercicio terminado en dicha fecha.

Responsabilidad de los administradores en relación con las cuentas anuales abreviadas

El Presidente del Patronato es responsable de formular las cuentas anuales abreviadas adjuntas, de forma que expresen la imagen fiel del patrimonio, de la situación financiera y de los resultados de Fundación de Colores de Calcuta, de conformidad con el marco normativo de información financiera aplicable a la entidad en España, que se identifica en la nota 2 de la memoria adjunta, y del control interno que consideren necesario para permitir la preparación de cuentas anuales libres de incorrección material, debida a fraude o error.

Responsabilidad del auditor

Nuestra responsabilidad es expresar una opinión sobre las cuentas anuales abreviadas adjuntas basada en nuestra auditoría. Hemos llevado a cabo nuestra auditoría de conformidad con la normativa reguladora de la auditoría de cuentas vigente en España. Dicha normativa exige que cumplamos los requerimientos de ética, así como que planifiquemos y ejecutemos la auditoría con el fin de obtener una seguridad razonable de que las cuentas anuales abreviadas están libres de incorrecciones materiales.

Una auditoría requiere la aplicación de procedimientos para obtener evidencia de auditoría sobre los importes y la información revelada en las cuentas anuales abreviadas. Los procedimientos seleccionados dependen del juicio del auditor, incluida la valoración de los riesgos de incorrección material en las cuentas anuales abreviadas, debida a fraude o error. Al efectuar dichas valoraciones del riesgo, el auditor tiene en cuenta el control interno relevante para la formulación por parte de la entidad de las cuentas anuales abreviadas, con el fin de diseñar los procedimientos de auditoría que sean adecuados en función de las circunstancias, y no con la finalidad de expresar una opinión sobre la eficacia del control interno de la entidad. Una auditoría también incluye la evaluación de la adecuación de las políticas contables aplicadas y de la razonabilidad de las estimaciones contables realizadas por la dirección, así como la evaluación de la presentación de las cuentas anuales abreviadas tomadas en su conjunto.

Consideramos que la evidencia de auditoría que hemos obtenido proporciona una base suficiente y adecuada para nuestra opinión de auditoría.

Opinión

En nuestra opinión, las cuentas anuales abreviadas adjuntas expresan, en todos los aspectos significativos, la imagen fiel del patrimonio y de la situación financiera de Fundación Colores de Calcuta a 31 de diciembre de 2014, así como de sus resultados correspondientes al ejercicio anual terminado en dicha fecha, de conformidad con el marco normativo de información financiera que resulta de aplicación y, en particular, con los principios y criterios contables contenidos en el mismo.
